SHAMA C S

Dear MeetMux Team,

I am writing to express my enthusiastic interest in the AI/ML Developer Intern position within the MeetMux Internship & Placement Program for 2025, as advertised. As a college-going student, I am deeply impressed by MeetMux's AI-first approach and its philosophy that "skills speak louder than degrees."

My academic background and personal projects have equipped me with a solid foundation in Python, TensorFlow/PyTorch, NLP, Computer Vision, and Deep Learning, which are all skills highly preferred for this role. I am particularly excited about the opportunity to contribute to cutting-edge AI models, recommendation systems, NLP pipelines, and multimodal AI integration for MeetMux's Mux Intelligence system. The prospect of developing and fine-tuning AI/ML algorithms and building scalable AI-driven microservices aligns perfectly with my career aspirations and passion for artificial intelligence.

I am eager to collaborate with your product and backend teams to deploy AI in real-world features, gaining invaluable experience in a dynamic and innovative environment. The paid internship stipend, pre-placement offer, and the unique additional training opportunity for top candidates further reinforce my strong desire to be a part of your program.

I am confident that my dedication, problem-solving abilities, and enthusiasm for AI/ML make me a strong candidate for this internship. I am available for the virtual selection rounds and look forward to the possibility of contributing to MeetMux's success.

Thank you for considering my application.

Sincerely,

Shama C S
